

SPORTUFF™

Liner System For Ceiling & Walls

FINISHING AND INSULATION SYSTEM

SporTuff™ Liner System instantly transforms dark and dirty metal buildings to bright and clean interiors. SporTuff is ideal for warehouse and manufacturing facility retrofits because of its exceptionally durable large fabric liner covering metal building purlins and girts and creating space for insulation and thermal performance. SporTuff saves energy costs, painting costs, and overall upkeep on maintenance for your metal building. Turnkey solutions including products and installation available from Sports Interiors.

EXCEPTIONAL DURABILITY

- Lengthens service life of ceilings & walls
- Featuring Triple Extrusion Welded Seams
- Reduces roof maintenance costs and lengthens service life

BRIGHTENS INTERIORS

- Save on electricity costs
- Reduces demand charges
- Equalizes light distribution

IMAGE AND APPEARANCE ENHANCEMENT

- Improves interior appearance
- Covers unsightly dust collecting structure
- Reduces shadows

EXCELLENT ACOUSTICS

- Absorbs 75% to 85% of the noise
- Easier for staff to instruct and converse
- Minimizes acoustical distractions
